

Greetings!

We would like to take this opportunity to wish you the very best this holiday season and thank you for your support this past year.

Despite the challenges and with your help we were able to fund two research studies:

Dr. Tamas Ambrisko at the University of Illinois - "Can High-Frequency QRS Electrocardiography Detect Occult Dilated Cardiomyopathy in Doberman Pinschers?"

Dr. Amara Estrada at the University of Florida - "Genome Editing in iPSC-Derived Doberman Pinscher Cardiomyocytes"

Both of these projects are ongoing and we look forward to reporting on their progress this coming year.

We have a limited supply of 2021 Calendars available as well as plenty of Facemasks and Pet First Aid Kits if you are so inclined, these products are available [here](#).

You can also donate directly to the cause [here](#). We are a 501c(3) non-profit, all donations are tax deductible.

Please stay safe as we all look forward to a more "normal" year of 2021.

Sincerely,

DPHF Board of Directors

James Barron
